

Soccer Field Project

Pinole Valley Road & Wright Avenue

Project Lead: Marcus Tartt
Developer: City of Pinole
Architect: Wolfe Mason Associates
General Contractor: Zolman Construction
Total City Budget: \$621,261
FY 05-06 Budget: \$0
Project Expenditures to Date: \$487,302
Completion Date: Summer 2005

Project Description: The City of Pinole purchased Pinole Valley Park in 1978 and developed a Master Plan for the park, which included provisions for baseball and soccer fields. The Master Plan supports an important goal of the City's General Plan to "provide for a wide variety of recreational activities in open space areas, parks, and school grounds within the City of Pinole, balanced with protection of important habitat." The underutilized portion of Pinole Valley Park, at the end of Wright Avenue along Pinole Valley Road, presents an excellent opportunity to achieve this goal. Prior to this soccer field project, there was only one soccer field in the City.

Project Status: The Soccer Field Grand Opening was held on September 10, 2005. The event was well attended by local residents and soccer league representatives and marked the beginning of the youth soccer league.

Next Steps: *Staff will begin preparing a close-out report for the project.*
